## Directors' Review

On behalf of the Board of Directors, I am pleased to present before you the Company's un-audited financial statements for the second quarter and half year period ended 31 December 2014.

### Financial Results

The domestic Polyester Staple Fiber (PSF) and Polyester Filament Yarn (PFY) industry is an integral part and feedstock provider of the textile sector and plays a significant role towards the growth of Pakistan's value-added textile exports. It is undergoing one of the worst business downturns in recent years. The difficult market conditions, amplified by regional and domestic over-supply coupled with dumping of PSF from China and other far-eastern countries, have eroded margins and caused continuing losses to your Company. Uneconomic pricing competition with China continued to adversely affect our quantitative sales and overall revenues and resulted in heavy operational losses, throwing the bottom and top line in jeopardy. In a nutshell, the Company's earnings were dampened by a hefty fall in prices and demand for PSF and PFY.

The persistent energy crisis and weak security situation may decelerate the growth of the industry in the country as no permanent solution to these quandaries seems to be available at the government level in the near future.

Suspension of gas supply to downstream units resulted in the closure of many consumers of our products and it ultimately interrupted our operations as a chain reaction. The Company also suffered from heavy gas shortages and sporadic shutdowns in addition to severe power failures during the half year period under review. The falling prices and continued market volatility of raw materials caused demand/supply imbalances, thus disallowing our customer base from maintaining stable operations.

Sales revenue for the half year period ended 31 December 2014 declined to Rs.2,291 million from Rs.3,462 million in the same period of 2013. Revenue for the quarter Oct-Dec 2014 also declined to Rs.1,075 million compared to Rs.1,800 million in the same quarter of the year 2013 showing deterioration in gross margins. This situation was aggravated by the decrease in sales volume and revenue of PSF and PFY. Before-tax loss for the half year increased to Rs.312 million from Rs.146 million in the last year. After-tax loss also increased to Rs.297 million from Rs.168 million in the same period of the year 2013. Results of the quarter ended 31 December 2014 reflect before-tax loss of Rs.174 million against Rs.30 million and after-tax loss of Rs.158 million against Rs.35 million in the same quarter of the last year.

Administrative and general expenses remained under strict control during the half year and remained comparable with previous periods. Financial costs in the half year period increased to Rs.87 million from Rs.44 million in the same period of 2013 due to bank borrowings for working capital needs.

## Future Outlook

Your Company has just completed a major Balancing, Modernization and Rehabilitation (BMR) project including the refurbishment of production lines and coal-based operations to maximize its operating efficiency and lower its energy-related cost. The necessary equipment has been installed and successfully put into operation. The production on poly-modification has started in full swing and will hopefully augment our sales volume. A slide in oil prices in the international market may further soften our raw material prices. Heavy stock inventories carrying higher manufacturing cost have now been fully depleted resulting in a substantial reduction in inventory losses. After the BMR project, the new production will be relatively more cost-effective to compensate for previous losses. Prices of global commodities like oil, PTA and MEG seem to be bottoming-out and thus restoring market confidence that will consequentially stabilize or increase the selling prices of our products and eventually lead to profitable margins. Due to the BMR modifications, our plant for the last three months was operating at lower capacity than usual and it has now started running at full capacity causing a decline in overhead cost and an increase in production.

The Company Management has implemented arduous operational modifications and the downturn cycle is hopefully transforming towards an economic revival.

On the Government front, efforts are needed for the creation of a conducive and enabling environment that puts an end to the miseries plaguing the industry and revives the polyester economy in Pakistan. National Tariff Commission should reconsider our pending application for imposing anti-dumping duty on PSF dumped from China to save the local industry from total closure.

The Management is committed to continue the growth momentum of transforming the Company's production facility into an operationally and economically sound manufacturing unit.

We are thankful to our valued customers, stakeholders, commercial banks and DFI's for their confidence in the Company. We also appreciate the unrelenting hard work put in by the Management and the staff of the Company.

On behalf of the Board

Nooruddin Feerasta  
Chief Executive Officer

## Independent Auditors' Report to the Members on Review of Condensed Interim Financial Information

### Introduction

We have reviewed the accompanying condensed interim balance sheet of Rupali Polyester Limited ("the Company") as at 31 December 2014 and the related condensed interim profit and loss account, condensed interim statement of comprehensive income, condensed interim cash flow statement, condensed interim statement of changes in equity and notes to the condensed interim financial information for the half year then ended (here-in-after referred to as the "condensed interim financial information"). Management is responsible for the preparation and presentation of this condensed interim financial information in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting. Our responsibility is to express a conclusion on this interim financial information based on our review.

### Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, "Review of Interim Financial Information Performed by the Independent Auditor of the Entity." A review of condensed interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the accompanying condensed interim financial information is not prepared in all material respects, in accordance with approved accounting standards as applicable in Pakistan for interim financial reporting.

The figures for the quarters ended 31 December 2014 and 31 December 2013 in the condensed interim profit and loss account and condensed interim statement of comprehensive income have not been reviewed by us and we do not express a conclusion on them.

## Notes to the Condensed Interim Financial Information for the half year ended 31 December 2014

### 1. Legal status and nature of business

RUPALI POLYESTER LIMITED ("the Company") was incorporated in Pakistan on 24 May 1980 under the Companies Act 1913 (now the Companies Ordinance, 1984) as a Public Limited Company and is quoted on the Karachi, Lahore and Islamabad Stock Exchanges. The registered office of the Company is situated at 241-242 Upper Mall Scheme, Anand Road, Lahore. It is principally engaged in the manufacture and sale of polyester products.

### 2. Basis of preparation

This condensed interim financial information is un-audited and has been prepared in accordance with the requirements of International Accounting Standard (IAS) 34 - 'Interim Financial Reporting' and provisions of and directives issued under the Companies Ordinance, 1984. In case where the requirements differ, the provisions of or directives issued under the Companies Ordinance, 1984 have been followed. This condensed interim financial information does not include all the information required for full annual financial statements and, therefore, should be read in conjunction with audited annual financial statements of the Company for the year ended 30 June 2014.

### 3. Significant accounting policies

The accounting policies and the methods of computation adopted for the preparation of this condensed interim financial information are the same as those applied in the preparation of audited annual financial statements of the Company for the year ended 30 June 2014.

The provision for taxation for the half year ended 31 December 2014 has been made using the tax rate that would be applicable to expected total annual earnings.

### 4. Accounting estimates, judgments and financial risk management

In preparing these condensed interim financial information, the significant judgments made by the management in applying the Company's accounting policies and the key sources of estimation uncertainty were the same as those that were applied to the audited annual financial statements as at and for the year ended 30 June 2014, with the exception of changes in estimates that are required in determining the provision for income taxes.

The Company's financial risk management objectives and policies are consistent with those disclosed in the audited annual financial statements as at and for the year ended 30 June 2014.

### 5. Investment property

Property held to earn rentals or for capital appreciation or for both is classified as investment property. Investment property comprises freehold land. Investment property is carried at fair value.

Investment property of the Company has been valued by independent professionally qualified valuers. The fair value of the investment property is based on active market price.

If an item of property, plant and equipment becomes an investment property because its use has changed, any difference between the carrying amount and fair value of this item at the date of transfer is recognised in equity as a revaluation reserve for investment property. However, if fair value gain reverses a previous impairment loss, the gain is recognised in the profit and loss account. Upon the disposal of such investment property, any surplus previously recorded in equity is transferred to retained earnings, the transfer is not made through profit and loss account.

If an investment property becomes owner-occupied or stock-in-trade, it is reclassified as property, plant and equipment or stock-in-trade and its fair value at the date of reclassification becomes its cost for accounting purpose for subsequent recording.

Other assets	9	90	-	-
	<u>46,309</u>	<u>135,913</u>	<u>891</u>	<u>47</u>

6.1.2 During the period the Company carried out a revaluation of property, plant and equipment which represents an uncovered area measuring five kanals situated at Race Course Road Lahore. M/s Hamid Mukhtar & Co carried out the valuation, based on their assessment and prevailing market conditions of real estate in the area, they are of opinion that fair market value per kanal is assessed to be Rs. 60 million.

	Un-audited 31 Dec. 2014	Audited 30 June 2014
Rupees in thousand		
<b>6.2 Capital work-in-progress</b>		
Building and civil works	21,448	12,810

<b>7. Investment property</b>		
Opening net book value	-	-
Transfer from owners' occupied property	300,000	-
Disposal of investment property	-	-
	300,000	-
Fair value gain/(loss)	-	-
Fair value as at 31 December 2014	300,000	-

The Company transferred a plot of land measuring five kanals out of property, plant and equipment and designated it as an investment property because of a change in managements' intention for such property. The resulting difference between the carrying amount and the fair value of such land at the date of transfer has been recognised as revaluation reserve in accordance with the requirement of IAS-40 'Investment Properties'.

#### 8. Long term borrowings

The Company has obtained a term finance facility of Rs. 500 million from MCB Bank Limited for the purpose of import of plant and machinery, spare parts and related civil works. The facility is secured by way of first charge over fixed assets aggregating to Rs. 667 million, lien over import documents and promissory note of Rs. 975 million. The loan is repayable in ten equal bi-annual installments starting from May 2016 and carries mark-up of 6 months KIBOR plus 0.5 percent to be reset on semi annual basis.

#### 9. Liabilities against assets subject to finance lease

	Not later than one year	Later than one year and less than five years	Total	Not later than one year	Later than one year and less than five years	Total
Lease rentals	545	1,093	1,638	-	-	-
Residual value	-	-	-	-	-	-
Minimum lease payments	545	1,093	1,638	-	-	-
Future finance charges	339	45	384	-	-	-
Present value of minimum lease payments	206	1,048	1,254	-	-	-

Minimum lease payments have been discounted using the effective interest rate of 11.44% implicit in the lease to arrive at the present value. Rentals are payable in advance in monthly installments. The lease contains a bargain purchase option exercisable at the end of the lease and it is reasonably certain that the Company will exercise this option at maturity.
